

iwis Conveyor and Rotary Drive Chains

iwis is your expert partner for **classic conveyor chains** complying with standards DIN 8165 and DIN 8167. Various modified chain versions, based on standard ELITE conveyor chains, allow us to offer our customers many additional application possibilities, including some which **deviate from the standard**.

ELITE® Conveyor Chains

Conveyor Chains – excellent durability

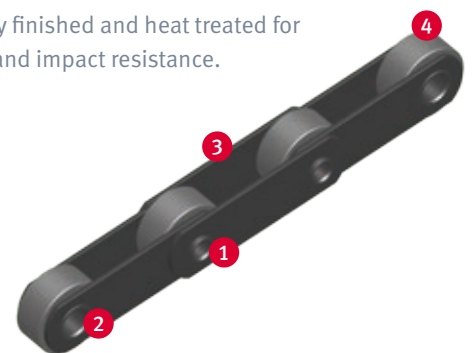

ELITE Conveyor Chains supplied by iwis to DIN 8165 and and DIN 8167 are used in applications to convey heavy loads **in industries such as timber, aggregate, quarrying, automotive, waste and recycling, biomass** and many more and offer excellent **service life and durability**.

iwis can supply imperial solid and hollow pin Z & ZC series chains as well as European Metric M/MT/FV & FVC Series chains. Our extensive knowledge and experience means a product with **uncompromising performance and value**.

i For dimensions see catalogue
High-performance Roller and Conveyor Chains

Highlights

- 1 Induction hardened, heat treated alloy steels for extra wear resistance, strength and ductility.
- 2 Precisely finished and case hardened tubular bushes for excellent wear resistance.
- 3 Precisely stamped, finished and heat-treated plates for high strength, wear and fatigue resistance.
- 4 Rollers precisely finished and heat treated for excellent wear and impact resistance.

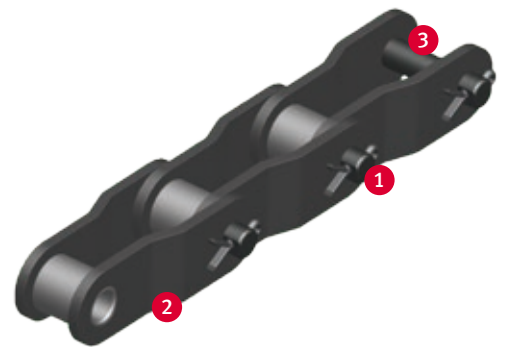

ELITE® Rotary Drive Chains

Rotary Drive Chains – extremely strong

To compliment our conveyor chain range is **ELITE Rotary Drive Chain** from iwis. Primarily designed for power transmission where extreme loads and environments dictate a rugged, cost effective solution, ELITE Rotary Chains are the perfect solution. Manufactured to ISO 3512/ANSI B 29.10/DIN 8182 they are easy to lengthen or shorten due to cotted pin retention so no special tooling is required.

Highlights

- 1 Cotted pins allowing ease of maintenance, durability and strength.
- 2 Precisely stamped hardened and tempered plates for high strength, wear and fatigue resistance.
- 3 Induction hardened, heat treated alloy steel for durability, wear resistance and strength.
