

Roller chain 40-1 Straight side plates - ELITE

Part no.: I4095f9b9fb6d

Packaging Unit: 5m

Brand: ELITE

Model: Straight side plates

Technical data

ROLLER CHAIN	40
Pitch p (mm)	12,7
Width between inner plates $b1$ min. (mm)	7,85
Roller diameter $d1$ max. (mm)	7,92

Pin diameter d2 max. (mm)	3,98
Pin length b4 max. (mm)	17,8
Max. add. length of connecting link b7 max. (mm)	3,9
Plate thickness Ti/To (mm)	1,50/1,50
Height inner plate h2 max. (mm) (JWIS: g)	12.07
Min. tensile strength ISO/DIN FU (kN)	13,9
Weight per meter (kg)	0,62
Bearing surface f (cm²)	0,43

Product Information

ELITE roller chains have a high wear resistance and significantly higher fatigue strength than the standard requires. The right choice for industrial applications: robust and reliable. All ELITE transmission roller chains are highly pre-tensioned and treated with our special additive chain oil eliDUR+, a high-tech initial lubricant. Non-drip eliDUR+ offers not only the added advantage of improved running characteristics, but also provides better corrosion protection.

ELITE highlights:

- Approx. 40% higher breaking strength is applied to pre-stretch our chains by 10% more than required by standard ISO 606
- Initial lubrication with eliDUR+ ensures extremely high wear resistance
- Low run-in elongation
- Tensile strength on average 20% higher than required by standard ISO 606
- ELITE pins have a smooth, extra- hard surface for increased wear resistance
- Operating temperature range with eliDUR+ standard lubrication: -5 °C to +70 °C
- All versions also available in coated form
- If required, we can deliver your chains ready-made to the desired length
- Special lubricants for low temperatures down to -30 °C or high temperature applications up to +250 °C available on request
- On request, iwis delivers chains pair-matched or set-matched and marked

Applications

- Warehouse technology, materials-handling industry
- Conveyor technology
- Assembly and industrial handling systems
- Wood processing industry
