Product Information

The FLEXON range of Plate Top chains are two piece assemblies of base roller chain, in steel or stainless steel, onto which a plastic plate is mounted. The combination of the two elements creates a chain with high breaking load provided by the ELITE base chain plus the benefit of a very flat top surface.

Stainless steel plates ready assembled on stainless steel base chain. Base chain has a straight inner link.

Highlights:

- ANSI 60 side bow base chain with extended pins
- Easy to change out the snapped on top plates

Applications

- Feeding and automation technology
