

plate wheel 20B-3 18 teeth

Part no.: I52f5c0d41e72

Packaging Unit: 1pce

Model: 18 teeth

Technical data

SPROCKET	20B
Pitch p (mm)	31,75
Width between inner plates b1 min. (mm)	19,56
Roller diameter d1 max. (mm)	19,05

Teeth	18
Tip circle dk (mm)	198
Pilot bore d1 (mm)	25

Product Information

iwis offers in the "plate wheels and drive components" sector an impressively wide range and broad stock of various plate wheels with pilot bores, and has full machining facilities in order to rapidly rework pilot bore plate wheels to customers demands. Furthermore, iwis provides fully finished plate wheels manufactured according to customer designs and drawings. iwis can always supply a wide range of ISO 606-compliant standard sprockets and plate wheels from stock. Our standard range covers sprockets and plate wheels in sizes 05 B-1 to 32 B-3.

Highlights:

- All plate wheels are suitable for roller chains based on the requirements of ISO 606
- All plate wheels with pilot bores
- The material used is unalloyed tempered steel
- Special surface treatments are available on request
